Once your application to register has been accepted by the Bach Centre, you will be sent a Certificate of Registration. Bach Flower Registered Practitioners are people from all walks of life who share a dedication to Dr. Bach's ideals of simplicity and self-help. They work with a therapy – the Bach system – but unlike most therapies, they aim to share their knowledge.

As a Bach Foundation Registered Practitioner, you will join a world-wide team committed to helping people help themselves using Dr. Bach's wonderful remedies.

EDUCATION BROCHURE

Change your life, enhance your career, change attitudes around you; become a Bach Foundation Registered Practitioner

In the 1920's and 30's, a noted homeopath and bacteriologist named Dr. Edward Bach discovered a complete system of 38 flower remedies. The remedies help us find the positive side of ourselves, breaking the barriers that stop us from growing and from living healthy lives. Whatever is in our way – fear, despondency, uncertainty – finds a solution in the system of 38 remedies.

The Bach International Education Program can help you learn more about the remedies. The Bach Centre approves the courses as meeting the requirements of its Bach Foundation education and practitioner registration program. This three-tier training program is offered in over 22 countries worldwide and is sponsored in North America by Nelsons.

Continuing Education Units

The Bach International Education Program is approved by the National Certification Board for Therapeutic Massage and Bodywork (NCBTMB) as a continuing education provider.
